

Welcome to the second issue of our quarterly newsletter, where we showcase all the happenings with the X-Air in Australia and Overseas.

## X-Air - The most popular new aircraft in Australia ??

We think so, to date we have sold eight aircraft in Australia since last September. This meets our business goals of offering a safe, well designed and inexpensive aircraft, easily assembled by the average person in just a couple of weeks.

Our customers have been full of praise about the high standard of finish and the speed that their orders have been processed and delivered.

## Natfly 99 - Narromine

Narromine is going to be extremely busy for X-Air, we will have our interstate dealers attending and aircraft on display fitted with Rotax 503, 582, 618 and the Jabiru 2.2. As a valued enquiry you will be given priority over the general public with tyre kicking and test flights so please make sure you mention our newsletters.

## Natfly 99 at Narrogin ??

The guys in Western Australia reckon it's too far to come over from Perth so they are holding their own unofficial Natfly at Narrogin Airport about two hours south east of Perth. The X-Air dealer for Western Australia, Allan Griggo will be in attendance over the Easter break, again offering test flights and tyre kicking. Information about the Narrogin event can be obtained from Allan Griggo on 08 9493 1881 or Rod Jarrold CFI at Narrogin Airport.

## Tasmanian Dealer

We are pleased to welcome Darryl Peatey into our X-Air family, Darryl lives in Penguin, Tasmania and has just taken delivery of a Yellow and Blue X-Air. Darryl can be contacted on 03 6437 1384 AH. We don't have a photo of Darryl yet but living in penguin this is how we imagine him. *P.S. Darryl brought Doors ! It gets cold in Tassie.*

## Jabiru Powered X-Air

Our Queensland dealer Des Trindall has his X-Air flying fitted with the Jabiru 2.2 engine. My initial reaction when flying the aircraft was distressing, I could see the propeller moving but there was no noise, the Jabiru is smooth, reliable and fuel efficient, a good choice to power the X-Air. For more information on the Jabiru contact Des on 07 5479 4455 BH or 07 5476 5634 AH

## Finance

Our Queensland dealer is also an accountant and business adviser, so for all your financing inquiries please give Des Trindall of Active Financial Answers a call on 07 5479 4455 BH. Des tells me you can own an X-Air for less than \$100 per week with no deposit.

## Remember you can fly away in an X-Air for under \$20,000

## X-Air Australia
